STATE OF THE ART HANGING SYSTEMS

PRODUCT
CATALOGUE 2007-2008

MORE THAN JUST HANGING ART

BELIEF

In 1995, the many years of experience of founder Jan van Boxtel in the framing business laid the foundation for picture-hanging systems and a belief in their strength. This belief has partly led to our market leadership in the Netherlands and our worldwide network of distributors who distribute and promote our products.

MORE THAN JUST HANGING ART

Whether it concerns hanging a children's drawing, advertising material for your company, a precious photograph or a valuable work of art, the wishes and demands for hanging them are of course very diverse. As a specialist in hanging systems we invent, develop, produce and sell hanging concepts which meet the need to hang art and information to walls or ceilings.

Flexible, high-quality and user-friendly.

MORE THAN JUST A PRODUCT

MORE THAN JUST A PRODUCT

When hanging decorations, the user makes high demands upon design, quality, flexibility and user-friendliness. We develop and renew complete concepts that not only meet these wishes and demands, but even exceed them. We manage this thanks to in-house product development, market information from our customers and our many years of experience.

QUALITY

More than anybody else, we understand that you only want to entrust your precious decorations to a reliable and sound hanging system. The products we market are therefore subjected to various quality inspections from product development to the finished product. Maximum capacity, finish, colour; each and every important aspect is thoroughly tested, inspected and documented.

CARE AND PRECISION

We use a custom-made fully automated combined press/controller. This machine enables us to meet the growing demand for picture-hanging systems and at the same time safeguard the constant quality of the products. Great attention is also paid to the assembly of our products into complete ready-made hanging systems for the consumer. To the same extent as you cherish your decoration, we also have our hanging systems assembled with care and precision.

FROM IDEA TO PRODUCT AND MORE...

As you can imagine we are proud of our hanging systems, the process they go through and how they find their way to the end-user. They give people the opportunity to hang those objects they find beautiful and of value to them; according to their own personal wishes and to their complete satisfaction.

Pride and belief in Arti TeQ alone is, however, not enough to get our hanging systems to the eventual end-user. To achieve this, you are naturally even more important. Not as a customer, but as a partner, because pride and belief has to be shared in order to be able to bring it across together. That is also the reason why we support you in every conceivable way. A good price, a constant quality and reliable delivery times, but also promotional support in order to be able to mutually work your market in your country as well as possible.

Arti TeQ hanging systems. More than just hanging art.

CLICK RAIL

Integrating a flexible hanging system into your home interior is easily and quickly done with the Click Rail. In three steps the rail is fastened to the wall; by hanging or sliding the wires in the rail with optional picture hooks, you can create a flexible suspension of your decorations. When you choose the primer finish of the Click Rail, you can paint this in the same colour as the wall so that the hanging system blends into the wall.

TOP RAIL

Ideal for transforming your system ceilings into a virtually invisible picture-hanging spot. As the rail is specially developed to fasten to the wooden side strip of the system ceiling, the decorations appear to hang straight from the ceiling. The top rail is also suitable for concrete ceilings.

COMBI RAIL

The Combi rail is a specially designed patented system with which decorations can be hung and lighted. The elegant armatures can be easily placed into the rail at any desirable place. The subtle light from the armatures shining onto your decorations give them a special quality.

■ For an overview of all picture hooks see page 23

PICTURE HOOKS

A wide variety in types of wall decorations and weight differences naturally also require specialized picture hooks for a smart and reliable suspension.

Arti TeQ has picture hooks for all these different types of applications, which can be divided into self-gripping hooks and hooks that need to be screwed manually.

- Screw manually
- For use on perlon wire
- Max. weight: from 4 kg to 10 kg
- Advice: screw an extra turn after 24 hrs for maximum grip
- Advice: do not screw with tongs

PICTURE HOOKS 9.4205, 9.4207, 9.4209, 9.4219 & 9.4208

- Self-gripping
- For use on perlon wire and steel wire
- Max. weight: 15 kg

- EXTRA feature 9.4228:
- Only suitable for aluminium side-loader frames
- EXTRA feature 9.4262:
- Anti-theft hook

PICTURE HOOKS 9.4228, 9.4261 & 9.4262

WALL HOOKS

As rails may not or cannot be used in all rooms, Arti TeQ also has hanging solutions to hang decorations in a sound and stylish way on, for example, partition walls.

DISPLAY-IT

The span wire system Display-It offers the possibility to make and change presentations on walls or hanging freely in a space (for example in shop windows). You can choose between two types of span wire systems:

<ul style="list-style-type: none"> Span wire with assembly feet 	<ul style="list-style-type: none"> Assembly between ceiling and floor Upper side wall and bottom side wall 	<ul style="list-style-type: none"> Suitable for slanting ceilings 	<ul style="list-style-type: none"> Span wire between 2 rails For even more flexible presentations 	<ul style="list-style-type: none"> Assembly upper side wall and bottom side wall (Click Rail) 	<ul style="list-style-type: none"> Assembly between ceiling and floor (Top Rail)

- THIS CATALOGUE HAS BEEN MADE WITH THE UTMOST OF CARE. NEVERTHELESS, PRINTING ERRORS AND/OR MISPRINTS CANNOT BE RULED OUT. NATURALLY ARTI TEQ CANNOT ACCEPT LIABILITY FOR THESE ERRORS.
- IN ITS PURSUIT OF CONTINUOUS IMPROVEMENT OF ITS PRODUCTS, ARTI TEQ RESERVES THE RIGHT TO CARRY OUT ANY CHANGES IN ASSORTMENT, VERSIONS, COLOURS, PRICES ETC. IN CERTAIN CIRCUMSTANCES.
- CORRECT MOUNTING OF THE ARTI TEQ HANGING SYSTEMS IS ESSENTIAL. THE INSTALLER MUST MAKE AN ASSESSMENT OF THE STRENGTH OF THE WALLS OR CEILINGS ONTO WHICH THE HANGING SYSTEMS WILL BE MOUNTED AND OF THE EXPECTED LOADS. THE INSTALLER MUST ALSO TAKE INTO CONSIDERATION LOCAL BUILDING LAWS AND REGULATIONS, AND IS ALSO RESPONSIBLE FOR ENSURING THAT THEY ARE COMPLIED WITH. IF NECESSARY, THE INSTALLER MUST USE SUITABLE MODIFIED MATERIALS FOR MOUNTING. THE INSTALLER ALWAYS HAS THE FINAL RESPONSIBILITY FOR CORRECT MOUNTING, ASSESSMENT OF THE WALLS OR CEILINGS AND FOR THE MATERIALS THAT ARE USED FOR THE MOUNTING.
- IN THE CATALOGUE MAXIMUM WEIGHTS ARE ADVISED. ARTI TEQ CAN HOWEVER NOT BE HELD RESPONSIBLE FOR INCORRECT USE OR A HIGHER LOAD OF THE PRODUCTS THAN ADVISED. ARTI TEQ CAN ALSO NOT BE HELD RESPONSIBLE FOR DIRECT, INDIRECT OR CONSEQUENTIAL DAMAGES THAT ARISE DUE TO MOUNTING ON WALLS OR CEILINGS THAT ARE NOT STRONG ENOUGH, COMBINATIONS WITH OTHER THAN ARTI TEQ HANGING SYSTEMS OR UNINTENDED COMBINATIONS OF ARTI TEQ HANGING SYSTEMS.
